

Parish Allotments

The Parish Council of Chidham and Hambrook are investigating the requirement for allotments in the parish for use by local residents. Currently there is no provision for community fruit and vegetable growing within the parish and the first step towards providing allotments is to understand whether there is a demand.

If you think you would be interested in renting an allotment plot, should the parish provide them, please let me know your name and address, via email, post or phone, this will enable us to gauge the level of support this project would have and also to give an idea of just how many plots would be required.

Please note, registering your interest carries no obligation to commit to an allotment should any become available, nor does it guarantee one.
