

Transition Chichester

taking care of tomorrow, today

As part of our season of inspiring talks and films on environmental issues we present the visually stunning film

HOME

**Monday January 10
7.30 pm**

**The Bassil Shippam Centre
Tozer Way
Chichester**

Entry & refreshment: £3.00

Through footage shot entirely from the air, photographer Yann Arthus-Bernard shows us a view of the world we have never seen. He shares with us his sense of awe about our planet and his concern for its health. He hopes the film will serve as a call for action to take care of our HOME.

The film was made possible through financial support from the French multinational group, PPR.

After the film there will be a discussion of the issues involved.
