

# **BARLEYCORN**

Dear residents

## **In our time of need, what we can to do help**

### **Supporting those who need it most.**

We will be offering a small but unique service to all local residents to help us through these dark and unpredictable times. Please understand that we are not doing this to make a profit and we will be doing this at cost price. In the event that we will go into isolation we understand that many people will struggle to get help and support, so we will be offering a daily service that will include a set main meal, a daily visit not just for yourselves but for your close neighbours. Our supplies are limited so please use this service if you are in need or know of anybody that will benefit from a hot meal a day. Any donations will be very much appreciated. Please see the attached sheet for our costings and services.

### **What we need from you.**

All food orders will need to be phoned through or emailed by 6pm the day before and your contact details left with us and an emergency number of a friend or family member.

If you require any other services, please make sure that you make it clear of what it is you need and we will do our utmost to provide this even if it is not on our list of services. Please just ask. We are a family run business and are fortunate enough to have the support of a large family that can help us support you.

### **Delivery protocol.**

**From us:** We will maintain the government guidelines to self-isolation. This will be including a two-metre distance from any member of the public, so on delivery we will knock or ring the doorbell. If we have no response, then we will try calling on the phone number provided. If no response from your number, we will use your emergency contact. If no response, we will pass this to the local authorities. If you are not receiving our services but require assists, please put a note or pillowcase on your door and we will come and check on you.

### **How to collect your delivery.**

Your delivery will be in sealed containers and wrapped with guidelines on how to heat or cook. This will be left on your doorstep and the delivery driver will maintain a two-metre distance from your door. If you have any requirements,

please ask the delivery driver who can lease with us and we will do our best to assist.

### **Payment.**

**Over the phone:** When you phone your order through, we can take card payment and bring your receipt with your delivery.

**Pay by card on delivery:** We have a mobile card machine so can take card payments at time of delivery. You will be provided gloves before using the card machine and giving instruction on how to use. Please note we are not able to produce receipt using this method.

**Cash:** We will leave a pot with your delivery for you to put your cash into. If possible, the correct money would be an advantage as it will minimise the risk of cross contamination due to not having to give change. If this is not possible then once you are back inside, we will leave your change in a sealed bag outside.

If you have any other questions or concerns, please give us a call and we will help where we possibly can.

**Can you help.** If you are in the position of helping us support the community or if there is any thing you feel you can offer as a service, please give us a call. As a nation we have fought through many hard times. Let's bring back the war time spirit and fight through this together. Any donations will be greatly received to help support our volunteers and keep the Barleycorn in business. Many thanks.

Stay safe and well

Kind regards

Alex, Kellie and the team at the Barleycorn.
